

BV 11/1 Backpack Vacuum: Thorough cleaning for those hard-to-reach places

The BV 11/1 Back Pack Vacuum combines a light-weight, durable design with a 1.7 HP vacuum motor to provide high suction performance with 4-stage filtration as an alternative to traditional canister vacuums; the BV 11/1 is ideal for use in cramped areas such as movie theaters, buses, trains, planes, offices and hotels. The BV 11/1 features a custom-designed harness that provides superior support and comfort over competitive models and reduced operator fatigue.

Features:

- Lightweight and comfortable harness system provides easier, fatigue-free cleaning
- Power switch is mounted on the hip within easy view and reach of the operator
- A kit of most-used tools comes standard with the machine
- Quiet operation prevents disruptive cleaning
- Large 10 quart capacity extends working times
- 360° swivel prevents tangling and kinking of the hose
- Rugged molded polyethylene housing easily endures knocks and bumps associated with commercial cleaning tasks
- Tool kit included simplifies any vacuuming job
