

Kärcher Commercial – NT 65/2 Wet/Dry Vacuum

Kärcher's commercial-grade NT 65/2 wet/dry vacuum is ideal for use in tough operating conditions in industry and the trades. Featuring Kärcher's patented TACT technology, there are no filters to install or remove when switching between wet and dry vacuuming. The crush-resistant hose stows conveniently on top for storage, and large rear wheels and front swivel casters provide easy maneuverability.

Features:

- 17.2 gallon capacity
- Kärcher's patented TACT (Trigger Air draft Cleaning Technology) filter system allows continuous fine and course dust retrieval without the need to shut the unit down for filter cleaning
- High-performance filter element provides longer operation before cleaning is required
- Self-cleaning filter provides longer, uninterrupted cleaning intervals
- Electronic tank level monitor shuts the vacuum motor off completely when maximum capacity is reached.
- Low noise level
- Rugged, impact-resistant housing with base bumper to protect vacuum and furniture
